# The **Blue** Print of **Fate**

What if we told you that not only people, but the houses and structures they live in, have Horoscopes too? That it's very much a reality is what Astro-Architect Neeta Sinha will reveal.

**W**hy do people who utilize the abundant knowledge of Vaastushastra and Feng-shui in their houses, still don't do well? That was the question that nagged the celebrated Astro-Architect Neeta Sinha. And on the path to discover the reason, she found out the reason. She realized how not only people but houses have Horoscope too, and that change in that horoscope is all it takes to make a change in your life. The astral lady shares her knowledge and experiences of her craft.

that there are a lot of other things which play an active role in creating positive or negative vibrations. For example the name of the person in whose name the place is bought plays a very important role. If you notice houses on different floors of the same building have the same Vaastushastra but still give different results to different people. The conclusion of all these observations resulted in Astro Architecture.

**What about positivity and negativity?**

Each house has 3 negative and 9 positive sectors.

Contacts & siblings  
 Mother & assets  
 Children & new ventures  
 Partner  
 Spiritual uplifting & long journey  
 Business  
 Income & fulfillment of desire  
 On entering a place I first try to find these details and then try to balance the positive and negative sectors.

**What are your views on destiny v/s astro architecture?**

Destiny is the most important thing in a person's life and he / she has to go through it no matter what because what

**What exactly is Astro Architecture? How does it work?**

Astro Architecture is the only term which can closely describe what I do. I use astrology through architecture and hence the term Astro Architect. The way it works is that after looking at houses according to the principles of Vaastushastra and Feng shui I realized

The 3 negative sectors are: Loans, Litigations and sickness  
 Sudden problems, accidents, losses & delays  
 Difference of opinion, over expense & struggle  
 The 9 positive sectors are: Name & Fame  
 Family & finance

is written is written. What I can do through astro architecture is make improvements in a person's life when they are going through the good dasha (period), basically enhance the good dasha and also minimize the bad dasha.

**Can the same place be lucky or unlucky for different people?**

Your question itself is the best tagline for Astro Architecture. Like I said before, the flats in one building will have the same Vaastushastra. In spite of this they give different results to different people. This is where Astro Architecture comes in. Using Astro Architecture the difference can be minimized.

**Do havans, mantras affect negative energy?**

balances the energy for as long as the person stays in that place. It has to be done only once.

**Which is the best and the worst place you have come across?**

The worst place that I have come across was Amitabh Bachchan's bungalow Mansa. Hence I suggested that the name should be changed from Mansa to Jalsa which have given him positive

results. Coincidentally the best place also belongs to Mr. Bachchan. His other bungalow Prateeksha.

**Do some places become positive and negative during certain periods? Why and how?**

Yes. The same place can become positive or negative depending on the dasha that the person is going through. If he / she is going through a good dasha the results will be good and if it is a bad dasha then there less good happening in that person's life.

**How do different metals and panchatatvas affect a place with their presence or absence?**

Metals are actually a part of the panchatatvas. The panchatatvas are the 5 elements – air, water, fire, earth and metal. The human body, just like the atmosphere is made up of these panchatatvas. Basically, there is a relation between man and the cosmos. This

relation has to be balanced.

**Share some of your experiences while interacting with your celeb clients.**

Well... this happened with Akshay Kumar. He was very keen on buying a house under his screen name i.e. Akshay Kumar. I realized this would create problems for him. So I suggested that he should buy it under his original name i.e. Rajeev Bhatia. It was actually a very small suggestion, but it made a very big difference in his life.

Another incident that I would like to share is about my interaction with Kirron Kher. It was around the time she was hosting this show Jaagtey Raho and I was really keen to meet her. People had this notion that you have to make structural changes to your house, break walls etc. for the good energies to flow. I wanted to break that notion. I spoke to her and she was fascinated with what I do and became my first Bollywood client. She was the one who recommended me to other Bollywood personalities.

**Are people destined to be at a positive / negative place at a certain period of their life?**

Yes they are. It all depends on what dasha / phase of life they are going through. If they are going through a bad dasha then the same house will affect them in a negative way. If they are entering a good dasha then they will automatically make positive changes in their house. Nature is most powerful and nature will make them take this step regardless of an Astro Architect like me being present. I am just a medium which can help in bringing the changes. It is all in the hands of nature.

**What are the Positive directions, negative directions, basic things to keep in mind while choosing a place, good directions for the kitchen, bedroom, kid's room and office?**

Astro Architecture can never be generalized. Like I said the same house or place can give good or bad results depending on whose name it has been bought in, the purpose for which it has been bought, whether it is a company, factory or a house.

Yes. Havans and mantras definitely help in clearing the negativity and are important for attaining peace of mind. But there is a difference between havans, mantras and Astro Architecture. Havans and mantras will provide a temporary help. Which means you will have keep doing them repeatedly. Astro Architecture
