## HOROSCOPES FOR HOMES!

**D**id you know that your house could be deciding your fortune? Well, if you want to sit back and relax because your home has been designed as per Vaastu Shastra or Feng Shui principles, let me inform you that they offer general remedies. After studying astrology, Vaastu Shastra and Feng Shui for many years, I realized that Vaastu Shastra and Feng Shui have a much generalized approach. For example, in a 12-storey building, every flat will have more or less the same Vaastu, because it is calculated on the plot. But the fortunes of the people in the various apartments are different. I started using astrology through architecture and that is how the term Astro Architecture came up.

Each house or office has three sectors, which determine negativity and nine sectors that determine positivity. The three negative sectors include: loans, litigations and sickness, which is the first one; the second one includes sudden problems,

Astro Architect Neeta Sinha, reveals how not just your *karma* but also your home could decide you fortune.

accidents, losses and delays; thirdly, difference of opinion, over expense and struggle. The nine positive sectors include: name & fame; family & finance; contacts & siblings; mother & assets; children & new ventures; partner; spiritual uplifting & long journey; business income & fulfillment of desire.

Balancing these positive and negative sectors is what Astro Architecture does. The most unique thing about it is that you don't have to make any structural changes. I suggest the use of simple items like plants, mirrors, wind chimes, etc. Also the use of colour in the right way is an important part of Astro Architecture. For example, if I suggest yellow, then that can be done by using yellow curtains or even yellow flowers. So I think it can be customized according to the person's budget.

After studying around 30,000 houses, I realized that like people, houses have a horoscope and the aura of the person has to match with the aura of the house. The horoscope of a house serves the same purpose as the horoscope of an individual and predicts what will happen in the life of the inhabitants through it.

Horoscope of the house is divided into 12 sectors. But while the human horoscope is affected by the time of a

person's birth and planetary positions at that time; for a house, the most important considerations are the name of the owner and whether it is a residential or office space.

I changed Amitabh Bachchan's bungalow's name from Mansa to Jalsa; I asked Shah Rukh Khan to pick a name with 'M' and he chose Mannat. There's a lot of aggression in that industry, people are always trying to reach the elusive top slot. Maybe that's why they are always looking for some energy to help them. Another example is of Anupam and Kirron Kher. They had two adjacent flats in an apartment block — one in his name and one in Kirron's. That was causing problems for them because the house was divided and was later rectified. On the other hand, Akshay Kumar wanted to buy a house in his screen name but this would be detrimental to him. He agreed to my suggestion of buying it under his real name Rajeev Bhatia, which made a very big impact.

There are some useful tips for Astro Architecture. It is a very good thing to keep plants because they absorb negative energy. All kinds of chaos and tension die because of plants. Just like plants, even colours are very important and they can be used in a subtle way. Colours like blue, orange, yellow help in stimulating the brain. Also, everyone should remember that the entrance of the house should be very well lit and having a red doormat is also very good idea. But you have to be careful while using red in other areas of the house as it is an aggressive colour.

Having been practicing it for years now, I would suggest Astro Architecture for every home and office ☺
